Factory Floor in Turkey

Thanks to its seamless application and high abrasion resistance, EPOXY-RESIN-51-FLOOR is ideal for industrial areas.

Please see below characteristic application pictures of an industrial project in Turkey. Application steps that have been followed:

1. Good cleaning of the surface
2. Primer application with AQUADUR
3. Dilatation joints treatment with HYPERSEAL sealants
4. EPOXY-RESIN-51-FLOOR application in one single coat.
5. Marking with HYPERDESMO-ADY topcoat.
